PROFESSIONAL EXPERIENCE

Engineering Manager, Paisabazaar Marketing Pvt. Ltd.

Apr 2026 to Present

Gurgaon

- Leading engineering teams in the design, development, and delivery of scalable digital lending and credit card platforms serving high-volume customer traffic.
- Driving end-to-end execution of partner-integrated lending journeys with banks and NBFCs, ensuring seamless customer onboarding and conversion.
- Owning architecture decisions and technology strategy for backend services built using Node.js, Redis, MySQL, MongoDB, Cassandra, and AWS.
- Leading strategic initiatives such as Single Unified Journey (MyPaisa) and ONDC integration to enhance customer experience and ecosystem connectivity.
- Ensuring production stability, system reliability, and operational excellence through robust deployment processes, monitoring, incident management, and performance optimization.
- Collaborating with product, business, QA, and external partners to align technology solutions with business objectives and regulatory requirements.
- Mentoring engineers, conducting technical reviews, participating in hiring decisions, and fostering a culture of ownership, innovation, and continuous improvement.
- Driving engineering best practices, scalability initiatives, and technical modernization to support business growth and platform resilience.
